

Computer Animation 1 & 2

- Create animation in 2D and 3D for web, TV and film. Create visual effects for video, movies, and TV
- Collaborate with animators, videographers & sound designers & learn how real productions come together
- Learn and explore Adobe After Effects, Adobe Flash, Adobe Photoshop, Mudbox and 3DS Max.

Earn Ohlone College Credit

* Recommended for Game Design /
Interactive Media Arts

In this 2-hour computer animation course students will learn how digital technology is applied in various animation careers. They will create basic graphics in a state-of-the-art computer lab at Mission Valley ROP and receive hands-on training in modeling, texture materials, lighting, animation, and rendering bringing life to graphic characters. Students will use software applications in Flash, After Effects, Photoshop and 3DS Max while working on individual and team multimedia projects. Students will complete this class with a digital portfolio highlighting their technical skills and creative abilities.

* See Game Design / Interactive Media Arts Flyer
or instructor for details
