Digital Imaging 1

- Discover & express your creative side
- Learn skills related to 21st – century careers in Art and Design
- Design using digital tools and technologies

UC "f" Credit
Earn Ohlone College Credit

Recommendations:
Basic computer operations or completion of a computer skills course and a 10th grade reading level.

Students will learn the basic knowledge, skills, abilities, and processes required for graphic design and multimedia production. Their hands-on activities will include: digital compositing, digital drawing, 2D animation, and graphic design.

Students are encouraged to express their thoughts and experiences using basic design elements. They will discover the application of digital art to media such as print, web, television, games, and emerging technologies.

To enroll or learn more about this program, talk to your counselor, visit your career center, or contact Mr. Chase at: dchase@mvrop.org
