

# Pharmacy Technician

This course provides high school juniors and seniors preparation for an entry-level career in the pharmaceutical field. While completing this course students will master various job duties required of a pharmacy technician including:

- Filling
- Dispensing
- Insurance
- Medication inventory
- Inpatients
- IV admixtures (Sterile Compounding)
- Pre-pack
- Unit dose
- Communication skills and duties under direction of a pharmacist.

Meets UC Area "g" Requirement

Students must maintain a C or better and excellent attendance to be eligible for an internship and to continue in Semester 2.
