

Mission Valley ROP

Career Technical Training Center

2020–2021 High School Courses

Courses at Mission San Jose High School

Digital Imaging (74240)

UC "P" Credit | Ohlone College Credit

Students use digital tools and technologies as art and design mediums to visually articulate thoughts, ideas, and experiences. Technologies include digital: painting, drawing, illustrating and graphic design.

Digital Photography 1 (74200)

UC "P" Credit | Mission College Credit

Study of digital photography encourages conceptual thinking and creativity. Explore hands-on digital photography fundamentals to include: Adobe Photoshop, lighting, set design, studio configuration, camera operation, software interfaces, color management, photo editing, and compositing.

Marketing (74421)

UC "g" Credit

Students will learn the basics of advertising, marketing, merchandising, and technology in preparation for entry-level marketing positions and college-level study. They will understand elementary business systems, functions, practices, and business math. Students prepare for DECA competition events.
