

Medical & Health Careers

- Meets UC Area “g” requirement
- Explore careers in the Health and Medical professions
- Gain skills & knowledge for entry-level positions in the health-care industry
- Make an educated decision about your future

Students will explore career pathways in health, medicine, life sciences, and biotechnology. They will be introduced to body systems; medical terminology, human growth, development, and aging; medical ethics and law; first aid; CPR; vital signs; infection control; and nutrition. Students will understand the role and responsibilities of a health care worker and the employability standards for the profession.

To enroll or learn more about this program, talk to your counselor, visit your career center, or contact
